RE: Lord Shope RD/RA Annual Progress Report

Dear Mr. Turner:

Lord is hereby submitting five copies of the annual progress report for 1994.

The following work was conducted during this period.

- The Remedial Design was completed and subsequently was approved by USEPA on July 20, 1994.
- The prospective bidder list for Remedial Action (RA) has been screened and six qualified contractors were submitted bid packages.

The project is on schedule and progressing well. Work on the RA is scheduled to commence 3Q94.

The only remaining issue which could impact the schedule is access to Over Lake property. Lord is still negotiating an access agreement and total settlement with Over Lake; Over Lake has filed suit seeking damages from Lord Corporation. Assistance from USEPA may be necessary to obtain access. Access will be necessary for 1995 activities.
